In their RMP, this is their listed chemicals...

| | |
|---|----------|
| 1-Butene | 106-98-9 |
| 1,3-Butadiene | 106-99-0 |
| Isoprene [1,3-Butadiene, 2-methyl-] | 78-79-5 |
| Vinyl acetate monomer [Acetic acid ethenyl ester] | 108-05-4 |
| 1,3-Pentadiene | 504-60-9 |
| 1-Butene | 106-98-9 |

None of these RMP chemicals are involved in the 15 tanks within the tank farm involved in the fire, so their RMP worst-case scenarios would not reflect any of the tanks involved in the fire...

With Regards, Steve
